EDUCATION

2023 – 2026
Bachelor of Science in Computer Science
University of Dar es Salaam (UDSM)

2021 – 2023
Advanced Level (A-Level)
Kilangalanga Secondary School

SKILLS

Languages
Python, JavaScript, TypeScript

Frontend
React, Vite, TanStack Query

Backend
FastAPI, Express, NestJS, REST APIs

Security
JWT, Authentication & Authorization, Guards, Middleware, Validation

Databases
PostgreSQL, Drizzle ORM, Database Design

Agentic AI
LangGraph, MCP, RAG

Data
NumPy, Pandas, Matplotlib

Tools
Git / GitHub

PROFESSIONAL SUMMARY

Computer Science graduate and full-stack developer with hands-on experience building secure, database-driven web applications using React, NestJS, TypeScript and PostgreSQL. Skilled in REST API design, authentication, and system design, with additional training in agentic AI (LangGraph, MCP) and data science. Delivers practical business solutions in inventory, productivity and payments.

PROJECTS

LifeHub – Productivity & Life Management Platform | 2026
React, Vite, NestJS, TypeScript, PostgreSQL, Drizzle ORM
- Web app to organize projects, plans, disciplines and personal goals in one system.
- Built secure authentication, a scalable API architecture and database-driven progress tracking.

Maize Inventory Management System | 2026
NestJS, PostgreSQL, React, TanStack Query, TypeScript
- Full-stack solution covering procurement, stock, production, sales, expenses and reporting.
- Real-time dashboard analytics, supplier/product management and financial reports to reduce losses.

Payment Reconciliation System | 2026
Python
- Compares payment records with expected transactions to flag discrepancies and unmatched payments.
- Produces structured transaction records and reconciliation summaries, cutting manual work.

Wi-Fi Access & Subscription Management System | 2026
Web application
- User registration/login, subscription plan selection, access credentials and payment history dashboard.
- Structured to support future payment gateway integration.

Visionary Youth Organization (VYO) Website | 2026
Responsive web design
- Professional website for a Tanzanian youth organization showcasing its mission, programs and impact, with ways for partners and volunteers to get involved.

TRAINING & CERTIFICATIONS

AI Engineer Agentic Track | Udemy (Ed Donner), 2026
- Agentic systems with LangGraph and MCP: stateful multi-step agents, tool calling, memory, human-in-the-loop.

Python Pro Bootcamp | Udemy (Dr. Angela Yu), 2026
- Core and advanced Python, OOP, APIs, web scraping, automation, and data analysis with NumPy and Pandas.

Full-Stack Web Development Bootcamp | Udemy (Dr. Angela Yu), 2025
- HTML, CSS, JavaScript, Node.js, Express, REST APIs, PostgreSQL and React.

Practical Training, dLab | Tanzania Data Lab, 2024
- Data cleaning, EDA, visualization, statistics and machine learning workflows in Python.
